PROJECTS

inkvent —A blog

This was a blog created by me in 2023. It was developed in HTML, CSS, Python and Flask and deployed to GitHub Pages.

arihant25.github.io/inkvent

Class Link Check —A browser extension

I developed the front end for this browser extension that notifies Google Classroom users when a Google Meet call has been created for their class.

I used HTML, CSS and JavaScript to make the UI.
